

With more than 30 years' experience Quinn Piling Limited have become one of Ireland's leading geotechnical solution companies. With current projects in Northern Ireland, Republic of Ireland and throughout the UK we are seeking to recruit the following:

PLANT FITTER / MECHANIC

PURPOSE OF THE ROLE

Reporting to the manager in charge of plant and machinery you will maintain, repair and service all aspects of the machinery, carry out vehicle inspections and associated administrative duties.

JOB DESCRIPTION

- As part of the fitting team you will be responsible for maintaining, repairing and servicing heavy plant, machinery and a fleet of diesel vehicles.
- Carry out vehicle inspections and deal with vehicle defect diagnosis and repairs.
- Conduct repairs as required in an efficient manner.
- Carry out vehicle servicing.
- Complete service and maintenance records in line with company procedures.

PERSON SPECIFICATION

- Minimum 3 years' experience maintaining, repairing and servicing heavy plant, machinery and/or diesel vehicles.
- Demonstrate experience and competency in Hydraulics, Electrical wiring and Diagnostics for diesel engines.
- Ability to update records of work carried out.
- Ability to adhere to safe and environmentally friendly operating procedures.

The above must not be considered comprehensive nor exhaustive. You may be expected to carry out other duties from time to time which are broadly consistent with those above.

Salary is negotiable and dependent upon experience. Hours of Work are 40 per week. This position is permanent.
