

VICTORIA TERMINAL 4

GROUND ANCHORS

Title: HSS Berth, Victoria Terminal 4 (VT4)

Belfast

Contractor: McLaughlin & Harvey

Client: Belfast Harbour Commissioners

Engineer: Doran Consulting

Description:

This job involved the design, drilling installation and testing of permanent ground anchors for a new ferry terminal in Belfast Harbour.

The ground anchors had a depth of 80m. All ground anchors were tested to a maximum load of 2250kN
