

ROSSAVEEL HARBOUR

MARINE PILING

Description:

This job involved the drilling, installation and testing of mooring piles for a new marina and the drilling and installation of berthing piles for a new ferry terminal at Rossaveel Harbour. Rossaveel Harbour is the main ferry crossing to the Aran Islands and is located in County Galway.

The piles were 508 and 820mm diameter and up to 26m long.

Quinn Piling supplied all drilling equipment including a Jack up Barge and an attendant crane barge. All piles were drilled and grouted into the granite bedrock

Title: Rossaveel Harbour

Contractor: L & M Keating

Engineer: Mott McDonald
